

**F**ast, efficient processing, complete cost records and detailed prisoner information that increases safety for inmates and jail personnel is essential for comprehensive corrections management. These features and more are available with DATAforce Jail Management software from Application Data Systems.

DATA CONTROL SOFTWARE

FOR JAIL MANAGEMENT

APPLICATION DATA SYSTEMS, INC. **ADSi**

## EASY

to learn and easy to use.

*The DATAforce Jail Management System was designed exclusively for departments that operate a correctional center or process a large number of prisoners for which the department will bill another agency for prisoner care and confinement. JMS is easy to learn and easy to use. Our software is hardware independent, allowing you to integrate your existing equipment, not add more.*

*Whether you are looking for your first jail management system, or want to upgrade your existing operation, you can rely on the specialists at Application Data Systems. We have been a dependable supplier of public safety and related law enforcement software to cities across the United States for over 15 years. Public safety software is our only business and we are committed to serving our customers today and in the future.*

### ■ **Total Jacket Management**

Inmates are tied to state and local databases for wants and warrants  
Keep track of prisoner data including medical data, departmental commissary tracking and inmate banking  
Accurately reports all costs for prisoner care and confinement

### ■ **Enhanced Safety**

Know each inmate's scheduled location including work details and housing  
Manage "keep aways" such as rival gang members or infectious prisoners  
Visitors logs are tied to NCIC and can search for local warrants  
Establish foreign warrants and holds on any prisoner

### ■ **Efficient**

Fast and easy data entry means rapid booking  
Avoids redundant data entries for repeat offenders  
Calculate prisoners' sentences, including good time, work time, escapes or other occurrences  
Integrates to DATAforce Warrant Control System which clears a warrant when the prisoner is processed

### ■ **Turnkey Public Safety Systems**

Application Data Systems software integrates all aspects of public safety management  
DATAforce for jail management, records and court management  
CADforce computer aided dispatch for police, EMS and fire services  
Integrates with ADSI's IMAGEforce software, to help your department track mugshots  
Can be integrated with AFIS systems
