COURT MANAGEMENT

ADSi

DATAForceWeb®
C O U R T   M A N A G E M E N T

Today's modern courtroom demands systems designed to streamline paperwork intensive tasks. DataForce Court Management software answers the call. From docket management to fee collection and disbursement, ADSi's DataForce Web Court Management Software gives Court Clerks the tools they need to thrive in such demanding environment, where time is short, and accuracy is essential.

Enter/Update Data From a Single Screen

Why fumble through page after page of paper documents, or navigate through a seemingly endless array of computer screens, when you can get the job done from a central *hub?* ADSi's DataForce Web Court Management Software allows clerks to enter or update the following information using Quick Links on the Administrative Docket Screen:

- Fine Payments
- Bond Payments
- New Charges
- Verdict Updates
- Warrant Creation

History Screen records all changes made to the Docket Record including:

- Status Updates
- Court Date Changes
- All Charge-related changes (Amended Charges, Verdicts, Distribution Costs, etc.)
- Bond and Fine Payments

History Screen captures and displays:

- Date
- Time
- Screen
- Clerk ID
- Description of changes made

Court Reporting Search Capabilities

When you need to find a record, maximum search-term flexibility is important. Using our powerful internal search engine, you can search for records matching any of the following:

- Court Jurisdiction and/or Court Type
- Docket Type
- Court Date and/or Court Time
- Docket Status
- Case Number
- Judge Presiding
- Officer / Deputy Name
- Partial Last Name / Partial First Name / Soundex
- Personal Identifier(s) (Date of Birth, SSN, Address, OLN)
- State
- Date and/or Time of Citation
- Next Pay Date

Clerks can select records marked *Paid in Full, Partial Payments*, or *All*, and results can be sorted by Name, Docket Number, or Court Date. Results are both hyperlinked and printable.

Bulk Updating

Clerks know that many updates apply to entire dockets, rather than single entries. That's why we've built an Update Search that will allow bulk docket updating for:

- Resetting Court Dates
- Setting Next Payment Dates
- Updating Docket Statuses
- Updating Pleas
- Viewing Grand Totals for *Charged, Paid*, and *Due*.
- All changes are recorded to the related individual Docket History screen

Seamless Integration With Other ADSi Modules

When used in combination with our other Public Safety Solutions, functions are further streamlined, and duplication of effort is minimized thanks to the following functionalities:

- Court Dockets can be created from within the Traffic Citation Module, Arrest Module, and Warrants Module
- Warrants can be created by a simple transfer of Docket information
- Court Judgments automatically update associated charges in the Arrest Module
- Visual and Audible alerts provide instant notification of active warrants

Court Docket Side Summary

Readily available information is not a luxury, but an essential component of efficiency, so ADSi provides you with an *always on top* summary bar, located on the side of the screen, providing a quick overview of vital Docket History information including the following:

- All Charges with associated Costs, Pleas, Verdicts, and Verdict Dates
- All Bond Transactions
- All Final Payment Transactions
- All Associated Persons (Co-Defendants, Attorneys, Witnesses, Victims, Officers, Etc.)
- Master Name Index (MNI) *Tree* of associated records hyperlinked to their location (Traffic Citation module, Arrest module, Incident Reporting module, etc.)

Also, the *My Desktop* screen provides instant login access to such information as:

- Last 5 Traffic Citation Records Transferred to Court
- Last 5 Arrest Records Transferred to Court
- Last 5 Dockets I updated

Other Program Highlights

- Distributions of full and partial payments are automatically calculated and reported
- Add multiple violations to a single citation
- MNI hyperlinks for Defendant and all Associated Persons
- Print Options allow printing of forms for individual violations, or in batches
- Attach pertinent digital files to records (documents, audio/video, photos, sketches, etc.), as easily as attaching a file to an email
- Electronic Filing available in certain jurisdictions (call for locations)
- Over 40 *Canned* Batch reports
- Ad Hoc Reporting capability available through partner applications
- Partner Applications allow internet payments via credit/debit cards
- Flexible, Court-defined code tables allow efficient & precise tracking of cases from initiation thru the adjudication process
- Easily maintain extensive personal information pertaining to an unlimited number of subjects, each of which can be hyperlinked to any other record

ADSi

Other ADSi Public Safety Software Products

ADSi offers *CADForce* for dispatch operations (Fire, LE, EMS), designed to help coordinate field personnel and manage resources. ADSi understands that with CAD, *downtime is not an option*, so *CADForce* is designed for maximum uptime and dependability.

DataForce Web LE, ADSi's state-of-the-art Law Enforcement Records Management System, continues to provide all the functions you might expect from an electronic *filing cabinet*, such as secure and dependable record storage and retrieval, enhancing your agencies effectiveness in the court room. However, ADSi has raised the bar in records management, creating software that not only helps you to prosecute crimes - but can help you solve them, too! Utilizing the latest in programming technology, DataForce delivers investigative power to your agency like never before. The *DataForce Search* global search engine is included as a vital piece of all DataForce Web modules - and *Web* means you can access the system from anywhere in the world via a secure high-speed internet connection.

ADSi also offers mobile data applications, mug-shot imaging, CAD & records mapping, crime scene photo management, electronic crime scene diagramming, bar coding for property & evidence and inventory modules, and more.

When you're ready to upgrade or purchase new software, why not consider a company that has been faithfully serving public safety professionals like you for decades - under the same name, the same ownership, and the same management - A company with a proven track record...one that delivers software on-time and within your budget. That company is ADSi - specialists in public safety software since 1981... and still the right choice.

History of ADSi

Since 1981, ADSi has supplied public safety departments with effective and dependable software tools. In fact, ADSi has installed software in more than 100 agencies all across the Unites States at the City, County, State, and Federal government levels.

The secret to our success is no secret at all: First, we offer great software at a fair price. Second, we support our customers every step of the way (we have customers that have been with us since the early 1980's because we take such good care of them). Third, we listen to our customers - as a customer, you tell us what you need your software to do, and we continually strive to improve the software to exceed your expectations.
